**MAKE \$7K MONTHLY
WITH DISCORD**

You did it, you took the first step. In this guide you will learn how to make money by simply promoting a discord server.

This is a method I have had massive success with over the last year. I tried it as an experiment, largely inspired by the sudden influx of internet guru's on short form platforms such as TikTok, IG reels and YouTube shorts. We will be doing it a bit differently though, since we will not be showing our face, or creating any content at all...

The driving factor in this method is that there are millions of people out there hustling to make their first X amount of money online. The drive is there, but the ideas are not. Damn near every person trying to make money online has created a TikTok page which repurposes the content of others, but they have NO IDEA how to monetize. They need guidance, and because of that it is easy to help them out in return for a profit.

Now, these people probably don't have money so they will not pay you for that info. But by teaching them how to promote products through short-form platforms, your success relies on their success, making it easy for them to trust you.

On the surface this seems simple right?

Find some people who want to make money, invite them into your discord server, guide them in how to grow social media pages, and give them a product to promote.

Let's diagnose the first major roadblock - how do we find a large amount of people and funnel them to our server? This is a question I have spent tens of hours researching, and when I thought of the following idea it felt like a million lightbulbs lit up in my head...

There are many websites on the internet for sharing eBook's and methods with each other. These are full of broke, money-hungry people who have an unimaginable amount of free time on their hands.

I thought, what if I create an eBook explaining the concept and funnel them all into a Discord server from which they can get guidance on how to make money promoting my products?

And within half a month of that idea I had started seeing some decent money, that was roughly a year ago. Over the past month this affiliate marketing group has made me over \$7k.

So now, let's get into a step-by-step breakdown of how you can do this yourself.

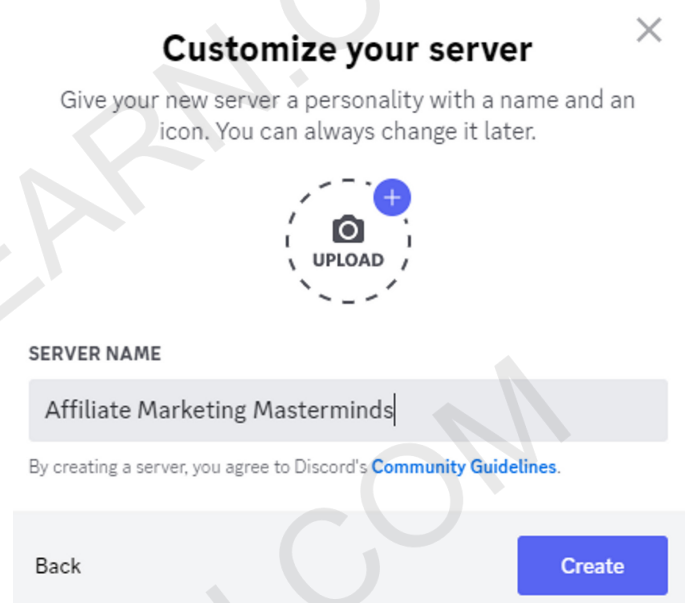

I'm not gonna drag these steps out forever, I'm simply going to give you a step by step actionable breakdown of what I did to set this up.

1 - Discord Server Setup

The first thing you will need to do is to set up the discord server, this is simple.

Most of you will, but if you have no idea how to use discord, I recommend watching [this video](#) to get a brief understanding of what Discord is and how it is used before going further.

Our server will need a name. I recommend going for something like "Affiliate Marketing Masterminds" or "Internet Money Mafia", the name has to express a sense of community and make the users feel like they're entering a premium private community.

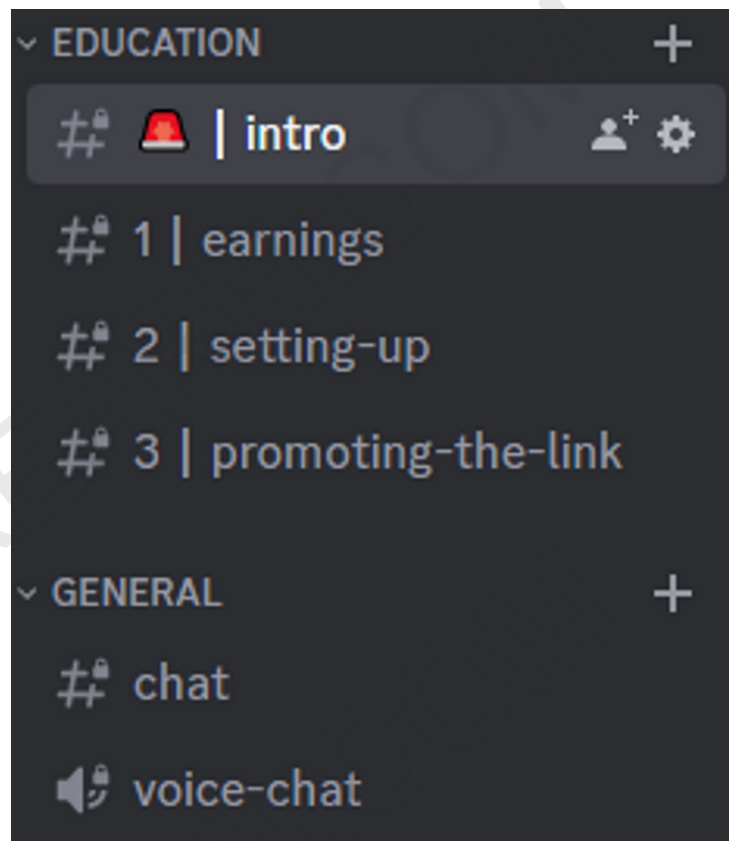

The screenshot shows the 'Customize your server' window in Discord. At the top, it says 'Customize your server' with a close button (X). Below that, it says 'Give your new server a personality with a name and an icon. You can always change it later.' There is a dashed circle with a camera icon and a plus sign, with the word 'UPLOAD' below it. Underneath is a text input field for the 'SERVER NAME' with the text 'Affiliate Marketing Masterminds' entered. Below the input field, it says 'By creating a server, you agree to Discord's [Community Guidelines](#).' At the bottom, there is a 'Back' button and a blue 'Create' button.

Now that our server has been created we need to set up the categories and channels.

There will be 2 categories. General & Education.

Below is what I wrote in each channel in the education category.

Firstly, let me show you some earning proof.
[https://youtu.be/\[redacted\]](https://youtu.be/[redacted])

This \$40k was from 1 motivation themed TikTok page.

How did I do it you may ask? Well, to sum it up in one sentence - I promoted digital products.

Now if you're here, that means that you are interested in creating your own pages to sell digital products yourself.

I want to make a deal with you.

I will teach you exactly how to promote the products on your page and give you all the necessary assets to do so if you will use an affiliate link to my proven-to-sell vertical-boosting program.

The promotion tactic, video/audio assets, sales page & program are all done, all you will need to do is put your affiliate link in your bio and a call-to-action in your videos.

The revenue will be a fair 50/50 split, meaning for every sale of the program you will earn \$12.50 (edited)

 **MS** 11/05/2022 3:40 PM
Let's be real, the reason you're here is because you want to make money from your theme page.

That's understandable since theme pages can be tricky to monetize. But if you're here then that means that you have a TikTok/Instagram theme page, or want to start one

That means you're getting (or will get) traffic, and in the internet marketing industry there is one irrefutable fact - traffic is money.

From a motivation TikTok theme page that I created, I make roughly \$10 per 1k views.

Now do me a favor, calculate how many views you're getting on your videos and multiply every 1000 by \$10.

That's how much you can make by promoting this product. (edited)

MS 11/05/2022 4:02 PM

In this section I will teach you how to set your link up

1. Firstly, make sure you have an affiliate link to the product we're promoting, if you don't have one already please make an account on Gumroad.com and send me the email you used to sign up to it in DM. I'll send you the affiliate link via. Email.
2. Then you need to set up a linktree to put your affiliate link in, simply go to their website, create an account, and put in the affiliate link I provided for you.
3. Then you need to put this link in the bio of your theme page. Keep in mind that on TikTok you will need 1k followers to be able to put a link in the bio.
4. That's all for the setup, now you're ready to start promoting. (edited)

MS 11/05/2022 4:01 PM

Promoting the link is pretty straightforward. There are two ways you can do this.

The first way is to put the ad which can be found in this drive -

<https://drive.google.com/drive/folders/...> share_link at the end of your videos.

Make sure that at the end of that video where you could see my TikTok profile, you add a screen recording of clicking the link in bio of your own page. This can be done in any video editing platform, I'm sure you'll figure it out 😊

So to sum that way up, put the ad which can be found in that drive at the very end of your normal videos. This means that a huge chunk of your views will end up viewing the ad.

The second way is one that converts better but gets fewer views.

You can create specific videos to promote the product, here you can let your creativity run wild.

Here's some video ideas:

1. "How I made X amount of money in 2022"
2. "How Iman Gadzhi makes his money"
3. "Are you tired of being broke? Try this..."

This will 100% convert better, but has less potential for going viral.

And now you're ready to start promoting. Time to get to work and start monetizing your page. If you have any questions just hit me up in [#chat](#) (edited)

You can pretty much copy these 4 channels word for word if you wish to do so. Keep in mind that you'll still have to explain the concept to almost everyone that joins, the education category is made simply for them to get a gist of what they'll be doing.

The general category is just for general chatting between you and your affiliate group.

2 - eBook Creation

In this step, you need to create a “fake” eBook teaching people how to make money on the internet. This eBook will be the key in getting people to join your scheme.

If you’ve never created one before [watch this.](#)

In this ebook, you will provide them a way to make \$10 per 1k views they generate on TikTok.

This eBook will explain the following system:

- They create TikTok/IG Reels/YT Shorts accounts in the make money online niche.
- They will post repurposed videos of creators such as Andrew Tate, Tristan Tate, Iman Gadzhi, Hamza, Sneako, etc.
- Once they unlock link in bio, they will promote your “proven-to-sell” digital product on making money, they will promote this by placing a 2 second ad at the end of every video. To do so, you will have to give them an affiliate link.

At the end of the eBook, there should be a link inviting them to a discord server where they will get access to a group chat and all the resources needed.

It should say something like "JOIN THE PRIVATE AFFILIATE MASTERMIND GROUP"

3 - eBook Distribution

Now, for the bread and butter of this method... This is literally something I would've paid \$10k for when I was first starting.

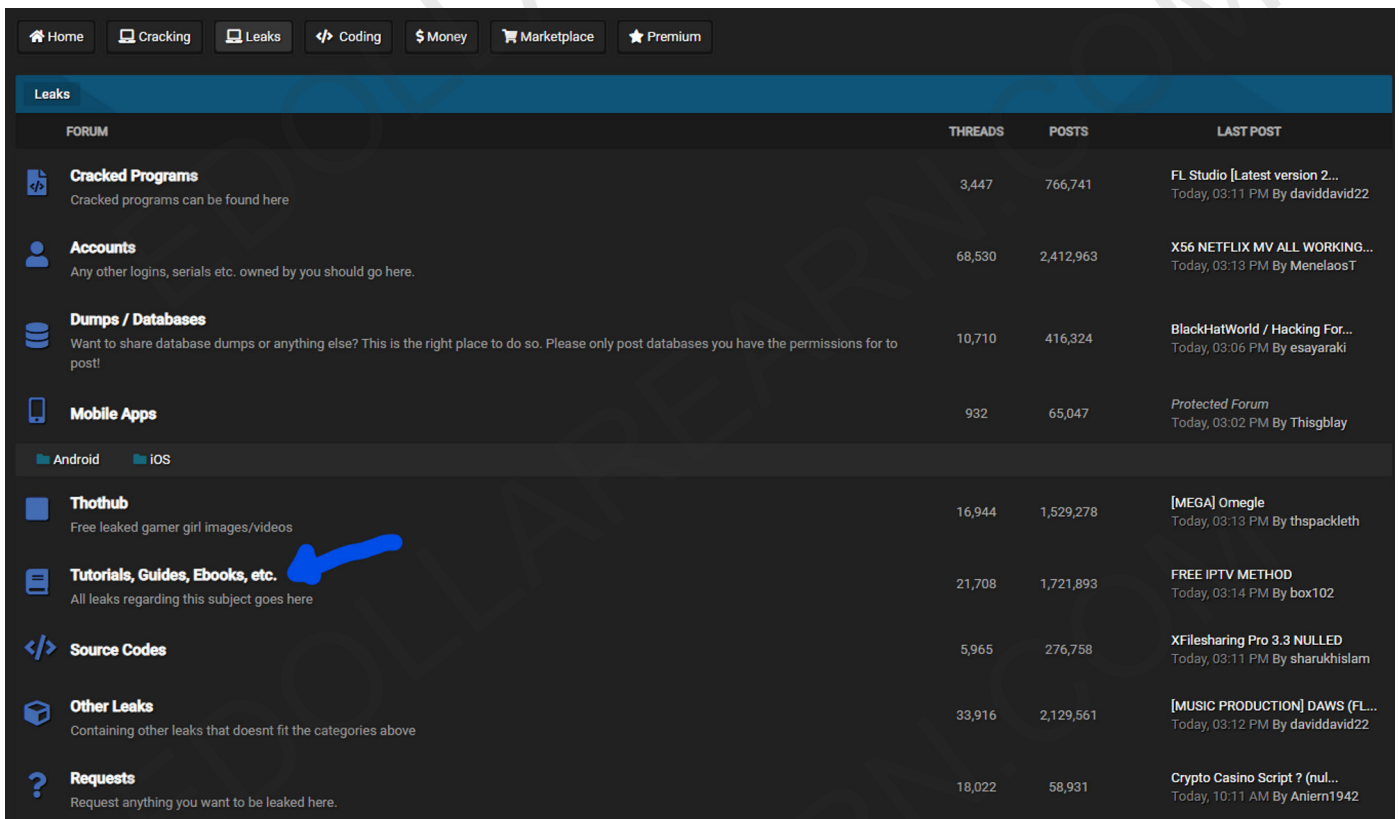

How do we find money-hungry guys with lots of time on their hands who we can guide to promote our products? That's the question...

There are websites that are made solely for sharing digital assets, such as:

- patched.to
- cracked.io
- nulled.to
- nulledbb.com

There are HUNDREDS of these websites all with thousands, (some even millions), of members each, so this ain't going to get saturated anytime soon.

We want to make an account on some of these websites and share our ebook, it's that simple.

The screenshot shows the 'Leaks' forum interface. At the top, there's a navigation bar with links: Home, Cracking, Leaks, Coding, Money, Marketplace, and Premium. Below this is a 'Leaks' header. The main content area is a table with columns: FORUM, THREADS, POSTS, and LAST POST. The table lists several categories, with a blue arrow pointing to 'Tutorials, Guides, Ebooks, etc.'.

As you can see, overtime these posts gets tens of thousands of views, meaning that A LOT of people will join your server overtime from sharing your ebook on there.

Keep in mind that 95% of people that join are not gonna take action and start promoting your products, but it's the 5% that will make the biggest impact.

4 - Main Product

Okay, we've got our server setup, our pdf made, and a discord server full of members... What should they promote?

Are your fingers tired from step #2? Because we're gonna have to make another ebook...

As for the topic of it... Since I can't tell you all to create the same exact ebook, your creativity will have to takeover here.

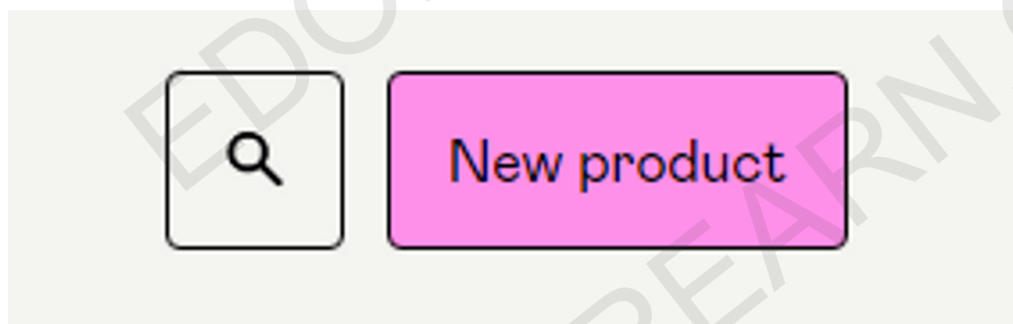

You have to make the ebook about a money-making method, it can be anything. Literally watch a YouTube video about how to do it and summarize it into an ebook, remember, it's not about what you sell it's about how you sell it!

While on the topic of selling it, we need to create a sales page for your ebook. To do this you'll need to create an account on Gumroad.

Gumroad is a payment gateway for online creators to sell digital products on.

Once you've created your account, click products on the sidebar

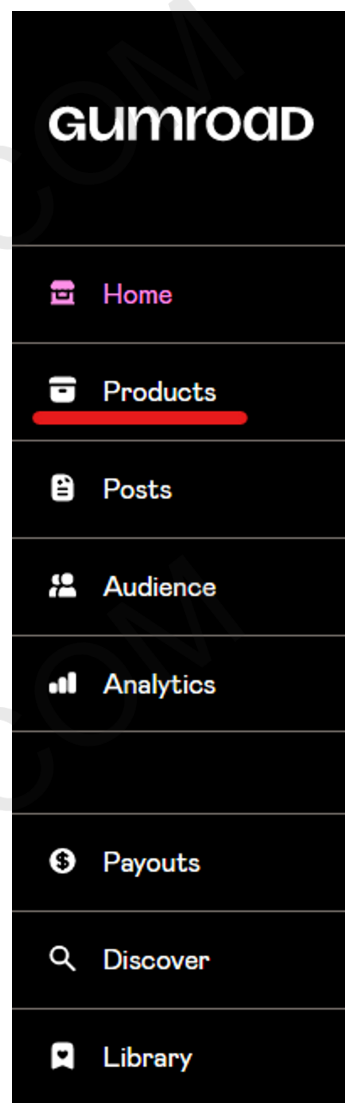

Then click “New Product”, this button can be found on the top right

Every step from there on is pretty self-explanatory. If you need help with any part of this shoot me a DM.

Keep in mind that the ad on your affiliate's tiktok won't be long enough to explain what it is they're buying, so the sales page is where you'll need to buy them over so make sure to write a good sales copy in the description!

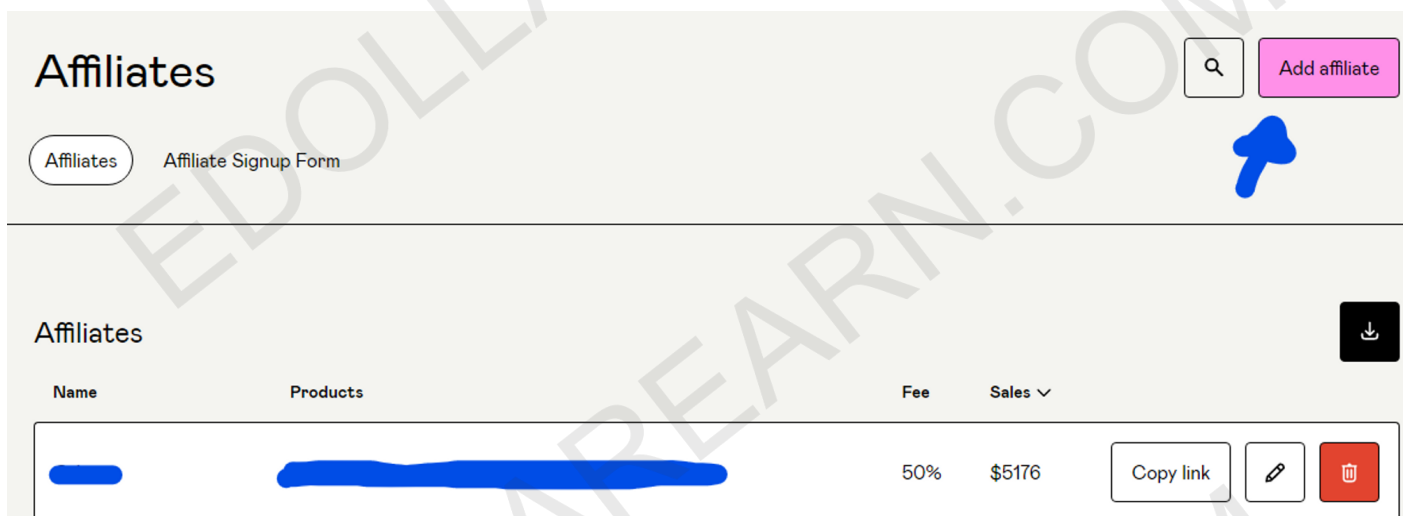

You need to sell this as if it is the best method they have ever laid their eyes on, there needs to be a large incentive for them to buy it, have a look at other ebooks on Gumroad discover page and look at some methods they use to influence people to purchase.

5 - Adding Affiliates

You're almost done. The last step is learning how to add an affiliate to your products.

You can do this by going to this page, clicking add affiliate in the top-right corner, and adding your clients gumroad email.

The screenshot shows the 'Affiliates' management page in Gumroad. At the top, there's a header with the title 'Affiliates', a search icon, and a pink 'Add affiliate' button. Below the header, there are two tabs: 'Affiliates' (selected) and 'Affiliate Signup Form'. The main content area displays a table of affiliates. The table has four columns: 'Name', 'Products', 'Fee', and 'Sales'. The first row shows a blue bar for the name, a blue bar for the products, a fee of 50%, and sales of \$5176. To the right of the table, there are three buttons: 'Copy link', 'Edit', and 'Delete'.

Name	Products	Fee	Sales
[Redacted]	[Redacted]	50%	\$5176

Now, enough reading and it's time to get to work. Please send me DM's with how your group is getting along. I'm looking forward to reading your success stories.
